

SOMEC STRENGTHENS SYNERGIES BETWEEN COMPANIES BELONGING TO THE 'PROFESSIONAL KITCHEN SYSTEMS AND PRODUCTS' DIVISION, GIVING BIRTH TO 'TALENTA'

Oscar Marchetto, Chairman: "The new structure will allow us to offer increasingly integrated solutions to support the talent and creativity of the best chefs"

San Vendemiano (Treviso, Italy), 13 October 2023 –Somec S.p.A. (Euronext Milan: SOM), specialising in the engineering, production and deployment of complex turnkey projects in the civil and naval engineering sector, announces that the "Professional kitchen systems and products division" will take the name of "Talenta". The choice intends to focus on human's ingenuity and know-how, allowing restaurateurs and starred chefs to successfully leverage on them.

The announcement takes place on the occasion of Host Milano, the international fair dedicated to the world of catering and hospitality, taking place from today to 17 October. All five companies that make up Talenta - Gico, Inoxtrend, Oxin, Pizza Group and Primax - are participating in the event for the first time with an integrated approach, while continuing to operate under their own company names.

With the new structure, some of the more technical production activities will be strengthened and made available to all Talenta companies. Similarly, a part of the transversal strategic services including Purchasing, Marketing and R&D were centralized with the aim of making the division more performing and providing better service to customers.

The birth of Talenta represents an important turning point in Somec's growth path in its three business segments: Engineered Systems for Naval Architecture and Building Façades; Professional Kitchen Systems and Products; Mestieri: Design and Production of Bespoke Interiors.

"Two years after the start of the reorganization of the Group into the current divisions, I am happy to announce the birth of Talenta. The new structure will allow companies in the 'Professional kitchen systems and products' segment to intensify their internal synergies, to offer increasingly integrated solutions and further strengthen Somec's position on the market - declares Oscar Marchetto, Chairman of Somec -. We want to share our know-how with restaurateurs and starred chefs so that they can find the most suitable tools to fully express their skills. What motivates us is an authentic passion for the human being and his creativity, the same that pushed us to create the Mestieri division, dedicated to the design and creation of high-end bespoke interiors".

///

Somec

The Somec Group specialises in the engineering, design and deployment of complex turnkey projects in civil and naval engineering by relying on three business units: Engineered Systems of Naval Architecture and Building Façades, Professional Kitchen Systems and Products, Mestieri: Design and Production of Bespoke Interiors.

The Group's companies operate in an integrated and synergetic manner, according to strict quality and safety standards while guaranteeing a high level of customisation and specific know-how on the processing of different materials, a key requirement when delivering high value-added projects.

In over 40 years of history and by relying on rigorous certification and accreditation processes, Somec has achieved a reputation for quality and operational and financial reliability on a global scale.

Headquartered in San Vendemiano (Treviso), the Group's footprint spans 12 countries and 3 continents, employing approximately 1,000 people and with revenues totalling 329 million Euro in 2022.
