SOMEC GROUP
IS ONE OF THE WORLD'S
LEADING EXPERTS IN THE
CONSTRUCTION OF COMPLEX
TURNKEY PROJECTS

Somec Group encompasses an ecosystem of expert companies specialised in engineering, design and deployment of complex turnkey projects in both civil and naval engineering. Our companies excel through integrated and synergistic operations, strictly adhering to quality and safety standards while offering high levels of customization and expertise in processing various materials-essential for high value-added projects.

With over 40 years of history, Somec Group's presence spans 12 countries and 3 continents, boasting 18 production plants and more than 1,000 people. Somec SpA has been listed on the Italian Stock Exchange since 2018.

We are reputable and reliable partners of excellence, thanks to our functional engineering and design management abilities, our competence in materials and the expertise we bring to our projects.

We serve as the hub of Italian construction quality, aggregating corporate and knowledge resources from extraordinary and globally recognised competencies, all dedicated to complex and highly specialised construction projects.

Our Group firmly believes in freedom as a core value for every individual - be it an engineer, skilled worker or craftsman. We continuously seek innovative solutions and processes to ensure the best outcome for every project.

INTERNATIONAL PRESENCE

With a legacy of corporate growth and development,

SOMEC GROUP HAS EMERGED AS A LEADER IN THREE KEY MACRO SEGMENTS

BRIGHT FUTURE FOR THE CRUISE INDUSTRY

STRONG GROWTH DRIVEN BY FLEET EXPANSION, RISING PASSENGER VOLUMES, AND SUSTAINABILITY INVESTMENTS

MARKET OUTLOOK

- **Global cruise passengers** forecast to reach 37.7M in 2025, growing to 42M by 2028 (+41% from 2019) proving the resilience of the industry.
- **Fleet expansion:** 310 ships in 2025, up from 279 in 2022 – more demand for outfitting, cabins, and public area fit-outs, focusing in bigger ships.
- **Luxury cruise** segment tripled since 2010 → more bespoke interiors, premium finishes, new customised spaces.

KEY TRENDS AND OPPORTUNITIES

- **>70% of ships are small-to-mid size** → increased demand for custom design and integration capabilities.
- **Sustainability investments:** shipyards and cruise lines investing in low-emission and hybrid tech → refitting and newbuild opportunities.
- **Multi-generational & solo travel rising** → increased demand for flexible, modular, and smart accommodation solutions.

Sources: CLIA report, 2025

Somec well-positioned with its:

- **Turnkey capabilities** (design-to-installation)
- **Strong relationships** with leading shipbuilders
- Innovation in design and production solutions with **high-value-added materials** and **new technologies**

BUILDING A BETTER FUTURE EVERY DAY

Somec Group embraces responsibility. In a time where technology enables high-performance and sustainable solutions, we ensure full accountability for our environmental footprint.

Since 2021, Somec Group has been publishing its Sustainability Report - Consolidated Non-Financial Statement, aligned with Directive EU 2014/95 (the Barnier Directive).

Here are recent actions taken according to the approved Sustainability Plan.

GHG inventory expansion: covering the entire corporate perimeter and adding more Scope 3 categories.

Corporate Social Reporting Directive Compliance: from double materiality analysis and stakeholder engagement to updating data points for the 2024 Sustainability Report.

Active participation: engaging in discussions and work tables, such as the Sustainability Group at Confindustria Veneto Est and the Polytechnic University of Milan's Digital & Sustainable Observatory.

SOLID TOP-LINE GROWTH (+9.6%) WITH SIGNIFICANT IMPROVEMENT IN PROFITABILITY

REVENUES OF THE DIVISION €m

- Revenues reached **235.3 €m**, up **9.6%** compared to FY 2023 (214.6 €m);
- Growth was driven by the expansion of **refitting** and **newbuilding** activities in the naval segment, confirming the Group's proven ability to secure and deliver **complex, high-quality projects** for leading shipyards and shipowners worldwide.

EBITDA AND EBITDA MARGIN OF THE DIVISION €m/%

- **EBITDA** to **22.5 €m** from 11.9 €m in the previous year, with the EBITDA margin improving to **9.6%** due to of increasing high-value refitting projects;
- Glazing in the civil sector also recorded a solid performance improvement, further consolidating its leadership in the U.S. market for complex, engineering-intensive façade projects.

TALENTA

RESILIENT PROFITABILITY DESPITE 3.2% REVENUE DECLINE

REVENUES OF THE DIVISION

€m

- Slight revenues contraction, down 3.2% to **58.8 €m** compared to 60.8 €m in the previous year.

EBITDA AND EBITDA MARGIN OF THE DIVISION

€m/%

- Improvement in profitability thanks to strong performance in naval kitchen projects;
- Additional contribution from companies focused on professional kitchen products, progressively benefiting from production efficiencies linked to ongoing industrial integrations.

REDUCED VOLUMES WEIGHING ON PROFITABILITY

REVENUES OF THE DIVISION €m

- Reported revenues of **88.7 €m**, down 7.3% from 95.7 €m in 2023;
- The decrease is primarily attributable to a slowdown in activity at one Group company focused on naval interior projects.

EBITDA AND EBITDA MARGIN OF THE DIVISION €m/%

- EBITDA decline by 25.5% delivering a performance below expectations;
- Within the division, contrasting trends emerged: the naval interior segment continued to face margin pressure on current-year orders, while the remaining areas recorded growth in both volumes and profitability.

PROJECT CYCLE

The operation model is common to all of Somec Group’s business areas and sets itself apart thanks to the development of original systems and the in-house management of the entire production process. As a result, Somec Group differs from the majority of those competitors who only operate as contractors and do not manufacture.

A Group of companies with strong common points and synergies.
In-house designing and manufacturing enable the exploitation of deep synergies and put the Group in the leading side of the high-end segment of the markets.

6 phases are common to all of the Group’s orders, in line with a continuous cycle of improvement led by management and directed at margins and scalability.

The marine and civil engineering DNA that has formed in some companies over years of accreditation and complexity, assists Somec Group in being a reliable partner in new projects.

INVEST IN PEOPLE, INVEST IN THE FUTURE

*"People are the greatest asset in a company.
The continuous innovation at customer's service
and the constant enhancement of performances
are the objectives reached by working in team."*

Oscar Marchetto

Attracting, retaining and valuing talent is pivotal in the Group's strategy to maintain a constant and high level of competitiveness.

Only through human capital can innovation be pursued, practising an approach and process method that links experience, creative effort and experimentation, in partnership with customers. All the design, research and development departments of the various companies of the Group work in synergy to develop unique solutions of excellence, able to respond to the constant technical and aesthetic challenges that the market demands.

PEOPLE EMPOWERMENT

TEAM GROWTH

HEADCOUNT BY DEPARTMENT

Somec Group organization boasts an experienced and skilled team that grows day by day through an on going program of training and development.

DEVELOPING, PRESERVING AND PASSING ON THE ITALIAN KNOW-HOW

Somec Group was set up and developed as a local business based on the skilled hands of expert craftsmen. As it has expanded, it has always recognised the priceless value of Italian expertise, which is precise when it comes down to fine detail and unique when it comes to style, defining it as a precious asset, and making it a moral duty to preserve and pass it on to future generations.

Somec Group is investing in training and education, to give some of the precious knowledge that has made the company successful back to the crafts and trades that are woven into Italian territory and beyond.

The Group is committed to setting up an Academy to:

Support the master craftsmen
by enabling them to pass on
their culture and protect their
knowledge and legacy.

Outline a training path
for young talents interested
in learning the profession
of the master craftsmen.

Establish collaborations
with universities and schools
to launch research and
innovation projects.
